## ***Between The Helpless & The Darkness***

**The newest alternative history epic by critically  
acclaimed author,  
Brent Olson**

*Released and published by Kirk House Publishers*

HARALD SIGURDSSON, King Harald Hardrada of Norway, King of the Vikings, was born to rule. He embraced that birthright, dominating his world with the strength in his arm and the power of his will. In an instant, one brutal mistake and a shattering wound took all he valued from him. But what if . . . Harald Sigurdsson fled his disgrace with a band of equally broken warriors still holding tight to his leadership. they ventured West, to Iceland, Greenland, into the darkness, to a land known only through legends and lies. A land with no need for a king, no room for a ruler. A land where a king could hope to become

something more. This enthralling, the thought-provoking story begins a thousand years ago on a battlefield outside York, England, and then moves across the North Atlantic to Iceland and beyond. Brent Olson's biggest, boldest, and best book yet is a stunning work of alternative history. By moving the path of one arrow one inch, Olson has achieved an entire new script for the world.

*This is the most amazing book I've read since the hobbit and Lord of the rings. Brent takes us for a ride through the era of kings battling for supremacy. There's a kink in the story that I can't say. Don't want to spoil it. I also like the fact that the author has been to these places so he writes from the heart. This should be on the New York times as a best seller. I would recommend this to anyone who wants adventure. Hope to see more from this author. \_ **Computer Technical Service***

*How would our world be different if the Vikings had settled in the New World and formed a mutually beneficial alliance with First Nation peoples? This novel is a page turner; full of historical detail, action, and grand characters including a number of fierce women. \_ **MGO***

## **About Brent Olson:**

Brent Olson's biggest, boldest, and best book yet is a stunning work of alternative history. Olson has achieved an entirely new script for the world by moving the path of one arrow one inch. Brent Olson, a journalist for a quarter of a century, has published seven books and filed thousands of articles from over twenty countries on six continents. Throughout this time, he couldn't help but wonder, "Couldn't we have done better?" Not fully content with his world, he decided to create a new one.
